I - PACED SYSTEM & MILESTONES

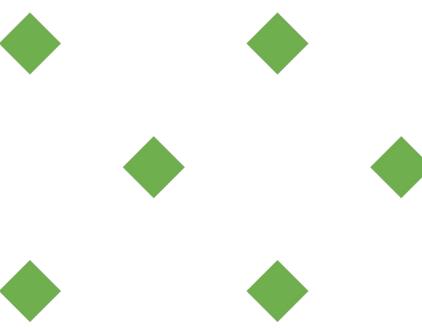

Introduction

The **Paced system**, will replace the old blackhole system, it consists of a major change in the rules determining when a student will automatically have their study terminated.

	8	12	15	18	22
Milestone 00	?	?	?	?	?
Milestone 01	?	?	?	?	?
Milestone 02	?	?	?	?	?
Milestone 03	?	?	?	?	?
Milestone 04	?	?	?	?	?
Milestone 05	?	?	?	?	?
Milestone 06	8 months	1 year	1 year and 3 months	1 year and a half	1 year and 10 months

Why this change

OLD BLACKHOLE

At the beginning, students have ample time, but it becomes insufficient for the final projects

The countdown adds stress as students fear their studies being terminated

Uncertainty regarding progress

PACE SYSTEM

Providing you with more flexibility

Less stressful approach to your Common Core

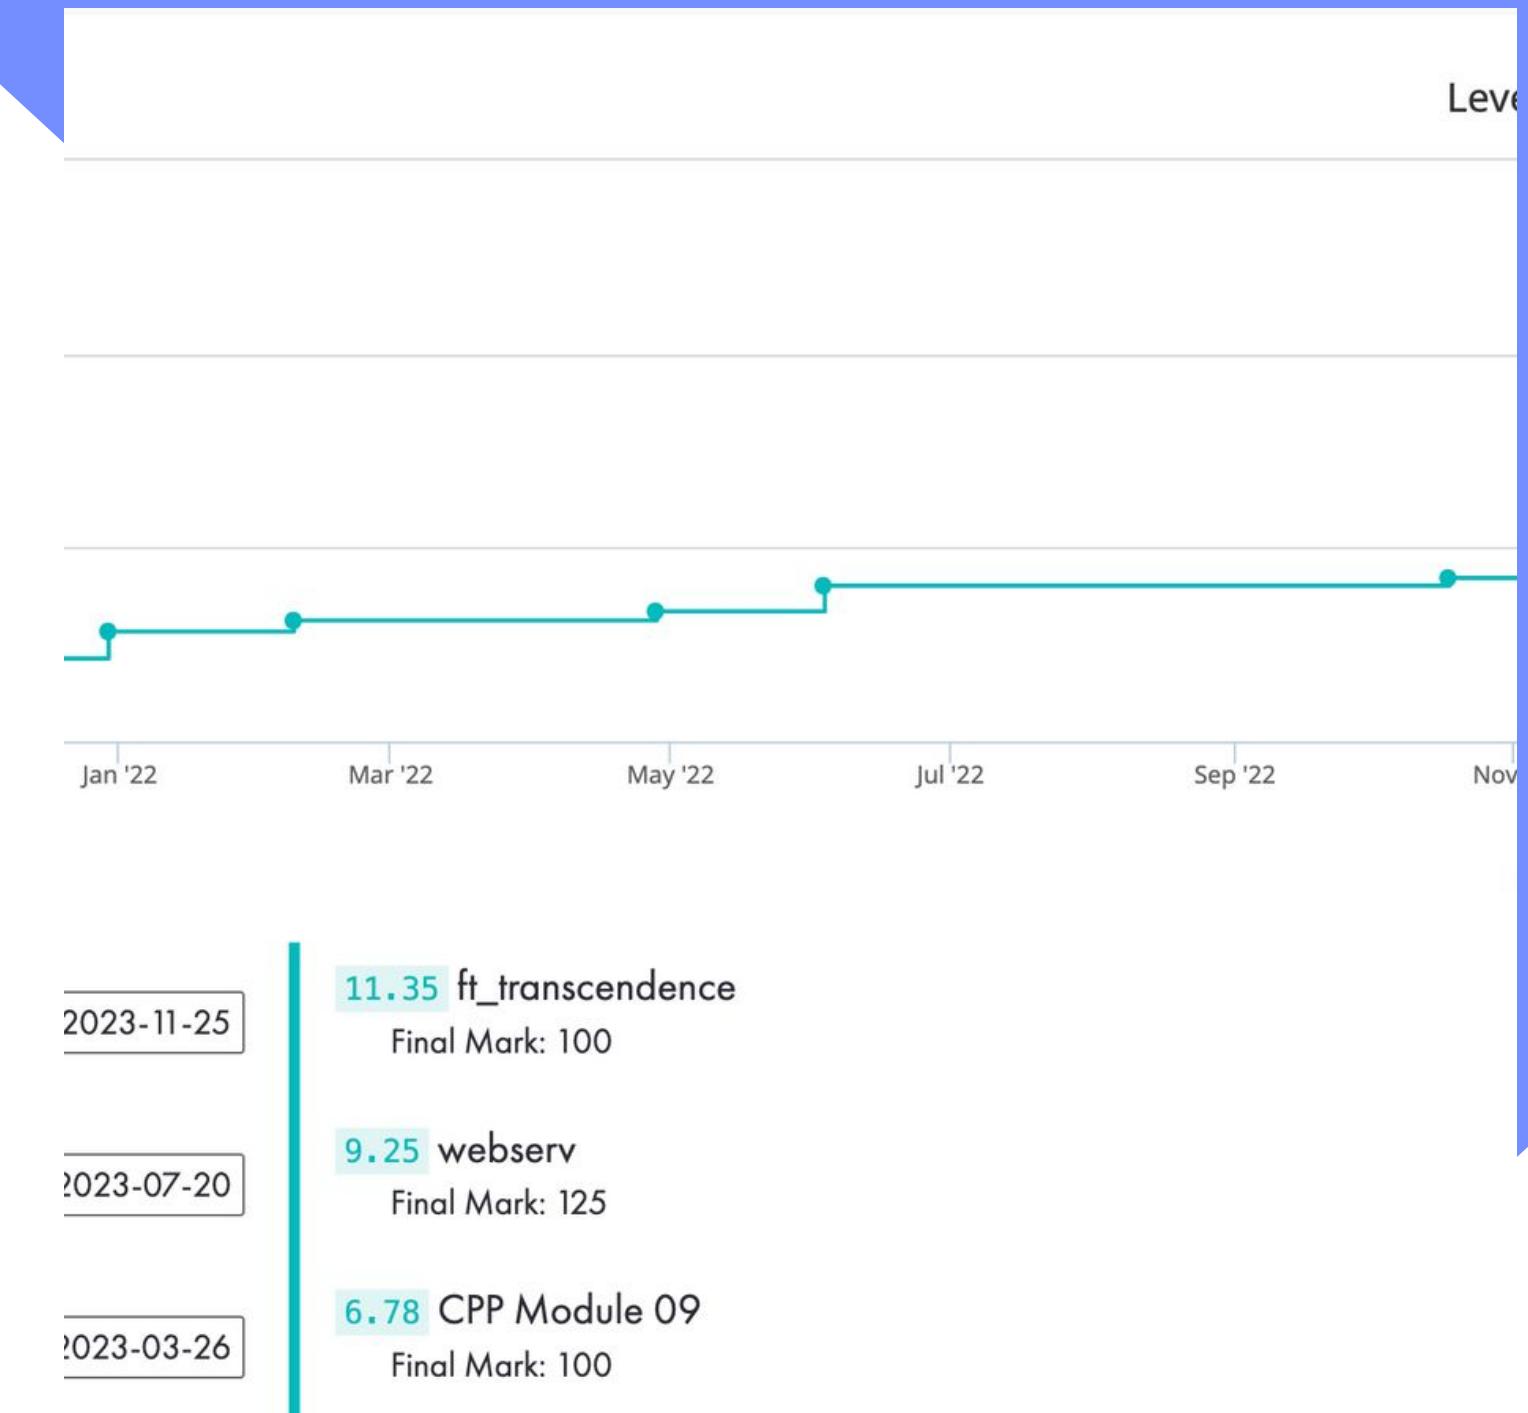

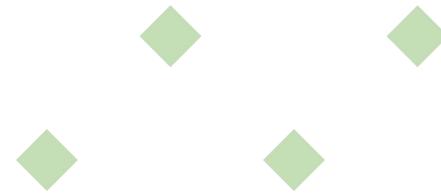

Shift your attention towards your projects and responsibilities rather than worry about how much time you have left

How Pace and Milestones work ?

This new system will still be based on a student's progression through the curriculum, but instead of looking at each project individually, the system will be based on Milestones in the 42 cursus Common Core.

What is a Milestone ?

There are 7 milestones in the Common Core, each circle in the holograph represents a Milestone.
And completing all the projects in a circle means achieving that milestone.

Milestone 0

Libft

Milestone 1

Printf - B2B - Get next Line

Milestone 6

ft_transcendence - Exam rank 06

Missing a milestone Deadline

If you do not finish a milestone by the deadline of your current Pace, You will be moved to the next Pace Unit.

	8	12	15	18	22
Milestone 00	?	?	?	?	?
Milestone 01	?	?	?	?	?
Milestone 02	?	?	?	?	?
Milestone 03	?	?	?	?	?
Milestone 04	?	?	?	?	?
Milestone 05	?	?	?	?	?
Milestone 06	8 months	1 year	1 year and 3 months	1 year and a half	1 year and 10 months

Achieving a Milestone

When a student achieves a Milestone on or before its deadline, Bonus days are added to the student's personal Bonus days counter.

Milestone	0	1	2	3	4	5
Bonus Days acquired	2	4	3	6	9	12

Milestone 6 does not give any bonus day rewards for the moment as it is the end of the common core.

What is a Pace units

A Pace unit represents the time a student takes to complete a milestone (circle) within the Common Core.

	8	12	15	18	22
Milestone 00	8 days	12 days	18 days	26 days	38 days
Milestone 01	?	?	?	?	?
Milestone 02	?	?	?	?	?
Milestone 03	?	?	?	?	?
Milestone 04	?	?	?	?	?
Milestone 05	?	?	?	?	?
Milestone 06	8 months	1 year	1 year and 3 months	1 year and a half	1 year and 10 months

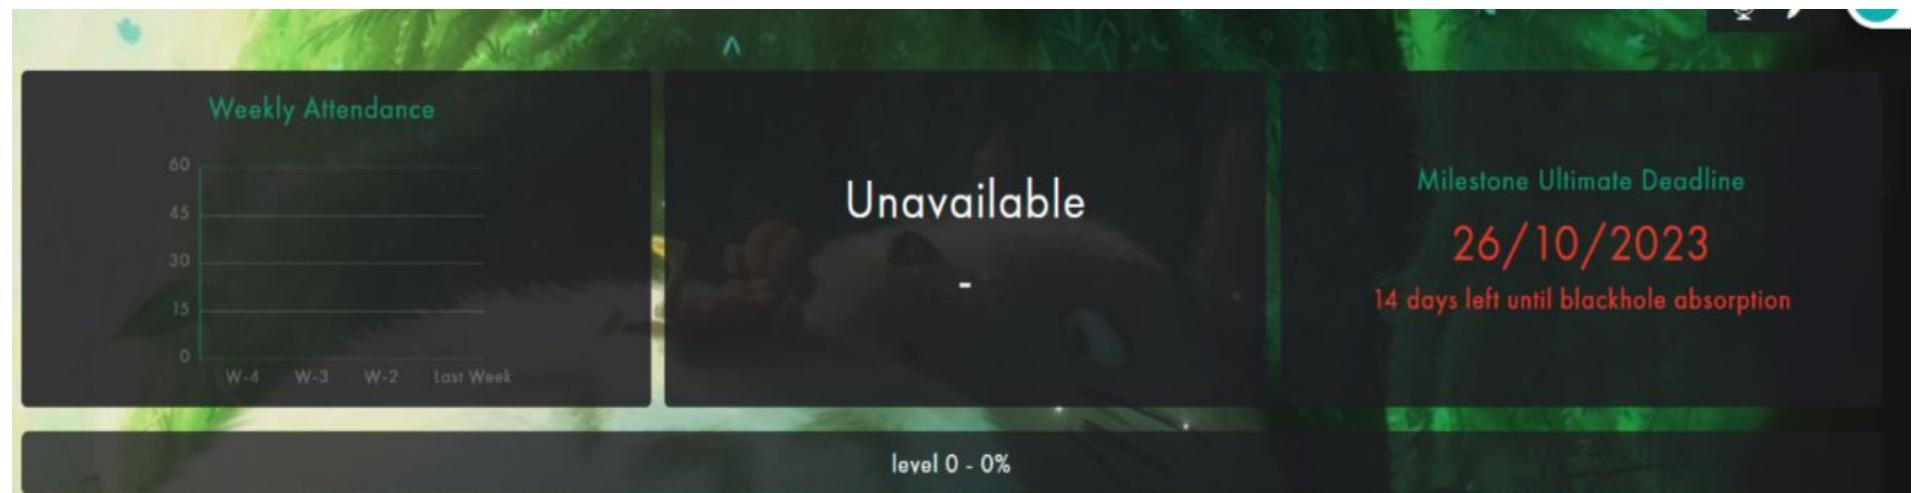

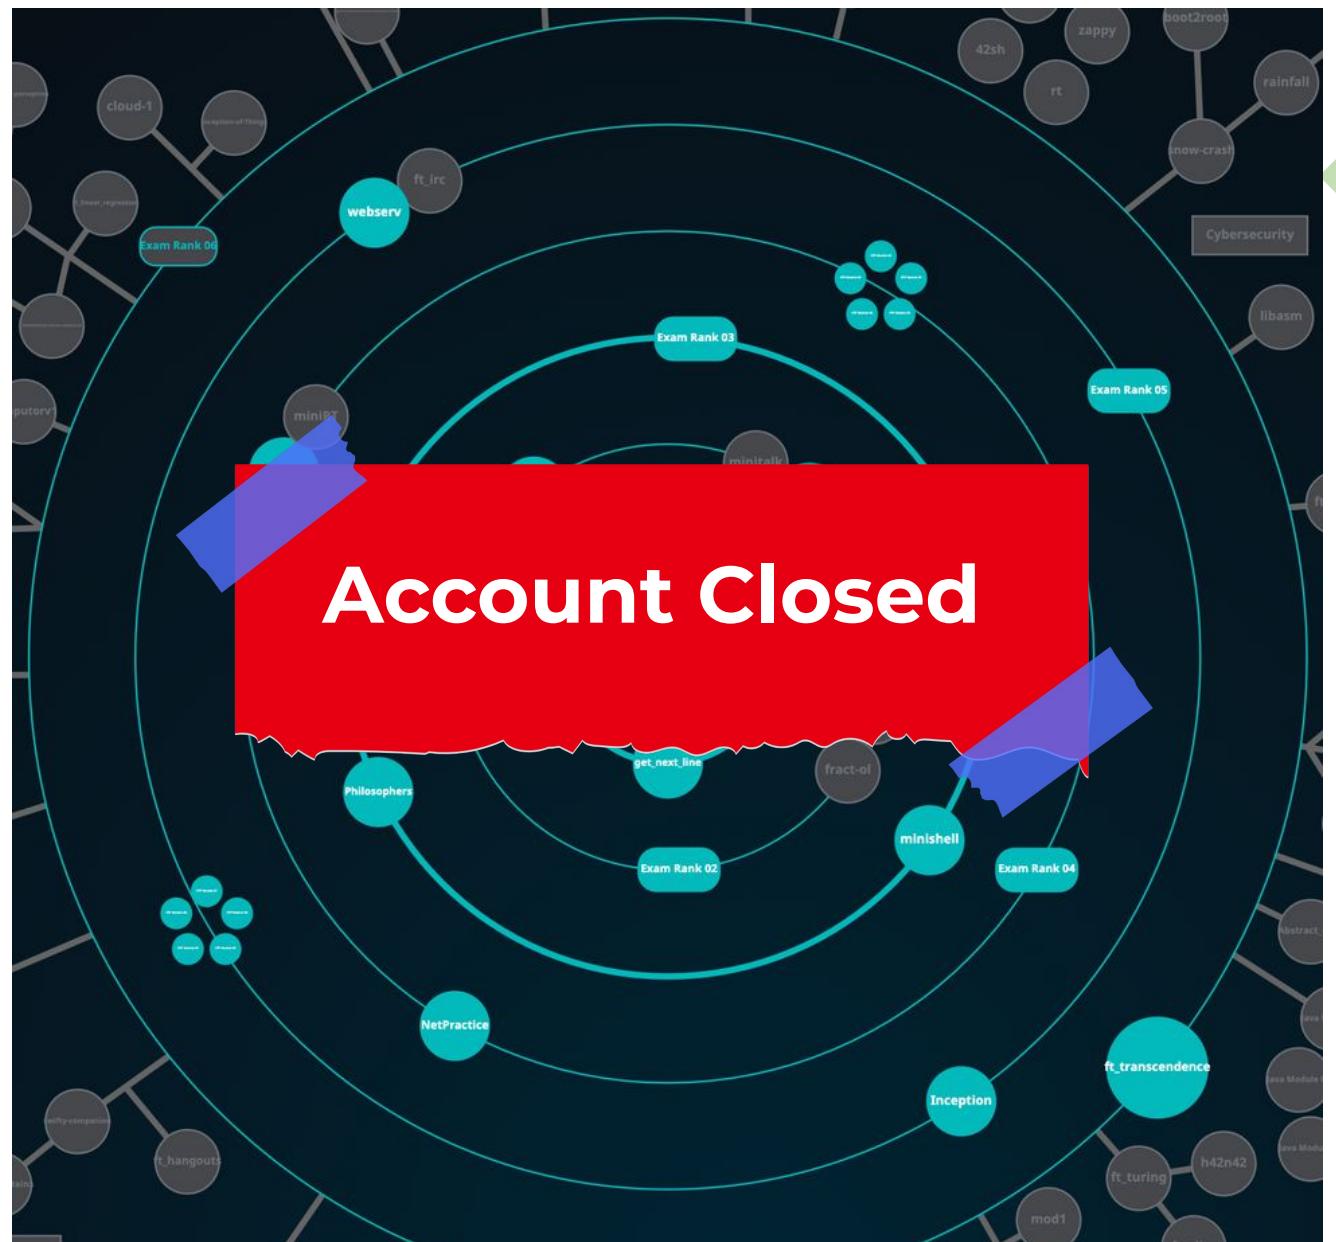

The Final Pace Unit

When the students are on the Pace 22 and 24, they will know because of the clear message they will get.

If the students don't meet the deadline for the current Pace unit, they will be transferred to the final Pace unit.

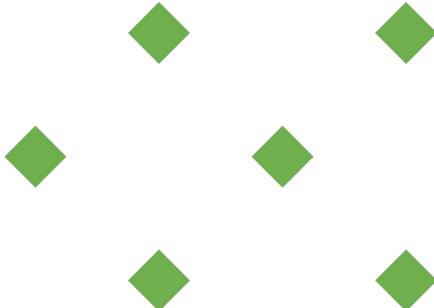

Once there, They will have 2 choices :

- Getting absorbed by the blackhole (If not finishing by the deadline)
- Validate the milestone and proceed

II - FREEZE SYSTEM

Introduction

The Freeze system is only applicable to students in the main curriculum and inside the Common Core. Like A.G.U.s in the previous system.

The Freeze system allow students to take a break in their study if needed, up to 6 months.

It includes 2 kinds of Freeze :

- Regular Freeze
- Bonus Days

Regular Freeze

Usage: suspend the curriculum because of unpredictable issue.

Duration: weeks to months

Cancellation: not consumed days refunded only if request was not approved yet

Students can not see their total usage

0 used upon activation

Student + Staff action

Approved by Staff

Close student account

Postpone the milestones deadlines

Bonus Days

Usage: take some rest

Duration: days

Cancellation: not consumed days are refunded

Students can see their available amount

0 acquired upon activation or at the beginning of the curriculum

Student action

Acquired upon milestone validation, Freely used by student

Does not close student account

Postpone the milestones deadlines
